

Kwik-Set™ Self-Facing System

Total Shelf Management

Center Push Advantage
Center-Push provides consistent, center-of-product force for most packaging shapes and styles.

Ratcheting Dividers
Easily adjust the widths of lanes by sliding dividers across the rail.

Various Pusher Widths and Attachments
Kwik-Set pushers come in a variety sizes to support a multitude of packaging.

Kwik-Set™ can be adapted for almost any product.

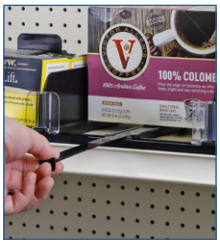

Curved Lens

V-Lens

Angled pusher

Roller Track

Full-Fence Kwik-Set™ System

Full Fence Rail

Full product stop coverage along entirety of the shelf. Available in 30”, 36”, and 48” widths.

Pusher Track Styles

Works with all Kwik-Set track styles

Ratcheting Dividers

Apply force to side of the divider to adjust position. Divider secures in place once pressure is removed.

Metric Sizes Available

Standard Kwik-Set™ System

Front Rail

Available with integrated push pins or slotted. Can be used with adhesive or magnets.

Adjustable Dividers

Push button to release position and move divider into place. Release button to reset location.

Pusher Track Styles

Standard, Wide, and Extra Wide-Base, Slow-Feed, and other track styles available. Additional product stops can be attached to the track

Dividers/Fences

Various height dividers available, with or without fences.

Attachments

Add attachments or change spring strength to accommodate package and product varieties.
