

ModoShelf™

The new face of produce merchandising.

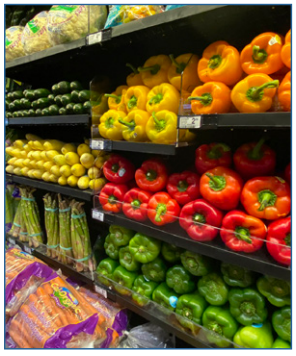

Cut cleaning time in half

Center-Push provides consistent, center-of-product force for most packaging shapes and styles. ModoShelf™ tiles are infused with Microban® antimicrobial product protection to combat against odor and stain-causing bacteria and mold. This ensures ModoShelf stays cleaner between routine maintenance efforts.

Easy access to well

No need to dismantle planograms, the ModoShelf Well Merchandiser allows for easy access to the well for sanitation and cleanliness.

Accessories to face product

Choose from an array of inventory blockers, rails, fences and other accessories to customize the display of your fresh area.

Fits in any produce cooler

The modular and lightweight design of ModoShelf means it can be easily set up by one person. The tile construction allows for easy disassembly to quickly and efficiently maintain cleaning protocols in the store's fresh area.

NSF BPA/EA FREE FDA APPROVED MATERIAL

ModoShelf™ Features

1. Shelf Construction

Lightweight tiles combined with a tube frame allows for one-person installation - no tools required

2. Grid Uprights

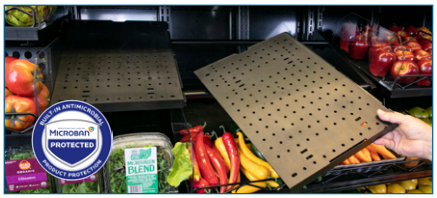

Insert as many uprights as needed for your shelf configuration - no tools required

3. Grid Mounting Bar

The grid mounting bars, top and bottom, inserts into standard uprights and securely hold Grid Uprights

4. Tile Installation

Tiles securely pressure-fit onto frame cross bars - no fasteners required. A four-foot shelf can hold up to 250 pounds

5. Tile Construction

Tiles are molded out of durable, recyclable ABS plastic that is optimized for cooler airflow

Metric Sizes Available

6. Accessories

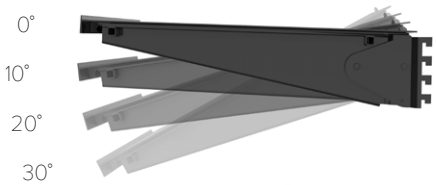

Variety of plastic and wire fences and dividers available, utilize front slots and shelf perforations

7. Shelf Frame Assembly

Frame ships flat or assembled. Snap cross bars onto side brackets for secure fit

8. Adjustable Shelf Angles

Adjustable angles with four different shelf positions: 0°, 10°, 20°, and 30°
